Project	<b>Implementing a bioenergy pilot project with practical demo and training</b>
Activity 2	Demos to stakeholders PART 1

Many visitors and stakeholders visited the installation and were given demonstrations and presentations about the technology. The “Proficient” students actively participated in many of these expositions, as part of “Training of Trainers” instruction. All the demonstrations by students were conducted under supervision.

The following is a gallery of stakeholders who participated in demonstrations at BWI

US Ambassador to Liberia

USAID and Winrock Int'l personnel at BWI during the first firing and demo. Below Alma Cota, energy engineer from W.I.

Bill Morris (center), owner of Morris Rubber Farm, a major rubber producer. His large farm is adjacent to BWI, and we are discussing collaborating on projects with him.

Delegation of senior engineers from Firestone Plantation. L-R: Brown Patrick, Rodrigo Patrick, H. Zaid

Prof. Rev. Coleman (Center) from Tubman University, Harper City

Ms. Precious Dennis, Director of KRTTI

Top left: Augustus Guanue, Executive Dir., of the Rural Renewable Energy Agency of Liberia (RREA). With him Mr. Massaquoi, Deputy Minister for Energy, Ministry of Lands, Mines & Energy.

Left: Stephen Potter (in yellow hat), dir. of biomass energy at RREA.

Note that the students operated the GEK throughout the presentation.

Presentation to Weston Capital. Also in meeting were Ms. Watchen Bruce, CoP, IBEX, (below, in red jacket) and Ms. Joyce, mayor of Carreysburg.

Nigerian trainees from Lagos. Ernest Onyenze (writing) owner of a P.E.T. Recycling business, and his generator mechanic Hyginus

Mr. Franklin Jackson, a commercial grower of palm oil. in Bassa,

James Cooper (opening the door, left) owner of Cooper Farms, a rubber plantation with many trees slated for felling.

Presentation given to following:

Not pictured

Name	Organization	Comments
Alhassane Kaba	K.K. Energy	Conakry, Guinea
